Ph		7.0 – 8.0
Charge		ANIONIC
Chrome stability		NOT STABLE
Dry Residue	%	30,0 ± 1.0

PROPERTY:

NOVACRIL PQ 30 Is a recipe that gives the skin a unique blend of quality and at the same time manages to give an excellent degree of grain feministry.

NOVACRIL PQ 30 can be used for both finishing articles and for softer articles such as drum's product, on which a uniform grain can be obtained on the entire skin.

NOVACRIL PQ 30 Normally it is used in variable quantities from 4% to 8%. Relative to the weight shaved on both chrome and vegetable skins.

It takes about 30 minutes to get a good penetration, the final bath must have a Ph 4,5 – 4,8.

For best result, it is recommended to dry the skins dry-vacuum.

These notes are only for information and does not imply any responsibility on the part of the company NOVAKEM SRL, it is the responsibility of the customer to determine the suitability of the product applied to its special processing.
