### TECHNICAL INFORMATION

**NOVADECAL** Is used on to eliminate calcium salts (lime) present in the leather.

**NOVADECAL** Formulated with the most old style traditional method to complex calcium ions, it brings a quite mild action in a complete and even way. The process doesn't procure any undesired swelling and the final pH value is always below 8,5.

**NOVADECAL** Contributes to hair cell cleaning, taking out of the grain the salty deposits and the piliferous bulbs detached but not squeezed out yet.

The deterging action will allow perfect bating and consistent tannage reducing the possibility of stains on Wet Blue.

These notes year only information and does not imply any responsibility on the part of the company NOVAKEM SRL, it is the responsibility of the customer to determine the suitability of the product applied to its special processing.
