

NOVAPOLISH F-P

DETERGENT FOR PRESS FELTERS

PHYSICAL AND CHEMICAL PROPERTIES:

Appearance		LIQUID CLEAR COLORLESS
Odour		CHARACTERISTIC
Colour		LIQUID TRANSPARENT
Solubility		EASILY SOLUBLE
Ph 10 g/l		12
Ionic character		ANIONIC
Use		CLEANING OF THE FELTS MACHINERIES
Dry Residue	%	12,0 ± 1,0

PROPERTY:

NOVAPOLISH F-P Has on purpose been formulated for the treatment of cleaning and maintenance to optimize the felts of the presses for wet-blue leather.

NOVAPOLISH F-P The product has a quick degreasing and detergent action to the oily residue released by the skins duringb squeezing, optimizing and extending over time the characteristics of the felt, that is the absorption of the water from the pressed skins and the subsequent release of the same conveyed through the special discharge.

HOW TO USE THE PRODUCT:

Sprinkle the felt with the product so as to absorb the liquid, or on machines equipped with a dosing pump, then aspirate the previously diluted product.

During this phase and for 25 – 35 minutes the machine must be motion at low speed and at minimum pressure to allow the solution to penetrate deeply. Rinse with clear and abundant water, increasing the pressure.

These notes are only for information and does not imply any responsibility on the part of the company NOVAKEM SRL, it is the responsibility of the customer to determine the suitability of the product applied to its special processing.
